

Loving Sister Earth

Praying for Universal Harmony

Love Changes Everything

By joining hands across the world we can spread our love out to heal our Common Home, for as the song has it, '*Love changes everything!*' We invite you then to join in the world-wide prayer for Universal Harmony. Take a moment each day to contemplate some aspect of creation.

Give thanks for it, pray for awareness of how you can live in harmony with it. Ask that all of humanity may share in its blessings. Through this ongoing contemplation you come more and more to love God's gift of creation and you play your unique part in its healing.
